

SAKSHI PRASHANT SANAS

Navi Mumbai, Maharashtra | +91 8652067301 | spsanas23@gmail.com

PROFESSIONAL SUMMARY

Artificial Intelligence & Data Science engineer who has just completed her final year of engineering in May 2026, with hands-on experience building machine learning systems, AI-powered applications, and cybersecurity frameworks. Proficient in Python, SQL, and web technologies, with practical project exposure across NLP, recommendation systems, and Zero Trust network security. A consistent high-performer in academics and athletics, recognised for leadership, analytical thinking, and the ability to deliver results in team environments.

TECHNICAL SKILLS

- **Programming Languages:** Python, C, C++
- **Web Development:** HTML, CSS, JavaScript
- **Database:** SQL (MySQL)
- **ML & Data Science Libraries:** scikit-learn, NLTK, Pandas, NumPy, Matplotlib
- **Core Competencies:** Machine Learning, Natural Language Processing (NLP), Sentiment Analysis, Recommendation Systems, Cybersecurity (ZTNA)
- **Tools & Technologies:** Power BI, GitHub, VS Code
- **Artificial Intelligence:** Generative AI, Predictive Modeling, Data Analysis
- **Cloud Platforms:** Microsoft AZURE , AWS
- **Languages:** English, Hindi, Marathi

ACADEMIC PROJECTS

ZTNA (Zero Trust Network Access) Security Framework

2025 – 2026

- Designed and implemented a Zero Trust Network Access (ZTNA) security framework for enterprise-grade authentication and access control, eliminating implicit trust at every network layer.
- Integrated multi-factor device and user validation before granting access, reducing simulated unauthorized access attempts by enforcing least-privilege principles.
- Applied secure access management techniques that improved overall network reliability and data protection across the system architecture.
- Technologies: Python, Network Security Protocols, Access Control Systems

AI Chatbot with Real-Time Response System

2024 – 2025

- Developed an AI-powered chatbot with a web-based front-end interface supporting real-time, multi-turn user conversations.
- Implemented intent classification and named-entity recognition (NER) to improve conversational accuracy and contextual response quality.
- Integrated the chatbot with a JavaScript frontend, enabling seamless browser-based user interaction without page reloads.
- Technologies: Python, HTML, CSS, JavaScript, NLP Libraries

Restaurant Reviews & Recommendation System

2023 – 2024

- Built a machine learning-powered recommendation engine that processes customer reviews and behavioural data to deliver personalised restaurant suggestions.
- Applied sentiment analysis (NLP) on review datasets to extract positive/negative signals, improving recommendation relevance and prediction accuracy.
- Designed a data preprocessing pipeline to clean and structure raw review data, enabling efficient model training and improved output quality.
- Technologies: Python, scikit-learn, NLTK, Pandas, NumPy

EDUCATION

Bachelor of Engineering (BE) – Artificial Intelligence & Data Science Datta Meghe College of Engineering, Airoli, Navi Mumbai 61.32% (6.8 CGPA)	May 2026
Higher Secondary Certificate (HSC) – Science Vidyalankar Tie-up with S.S High & Junior College, Seawoods 73.83%	2022
Secondary School Certificate (SSC) Fr. Agnel Multipurpose High School, Vashi 82.0%	2020

CERTIFICATIONS & TRAINING

- Business Intelligence using Power BI – Skill Nation (Data visualisation, dashboards, business analytics)
- Python using AI – AI for Techies (Python applications in Artificial Intelligence and automation)
- Python Basic Level-I Certification – University of Mumbai (Core Python programming and problem-solving)
- Web Development Workshop Series – SHAIDS, Datta Meghe College of Engineering (Frontend & backend fundamentals)
- AI Tools Workshop – Skill Nation (Modern AI tools and productivity applications)

ACHIEVEMENTS & LEADERSHIP

- 4x Sprint Champion (2023, 2024, 2025, 2026) – College Annual Sports Meet, demonstrating consistent performance, discipline, and competitive excellence.
- 1st Place – Multiple inter-college sprint competitions across consecutive academic years.
- National-Level Taekwondo Championship Participant – reflecting sportsmanship, fitness, and competitive spirit.
- Lady Representative – Sports Committee, Datta Meghe College of Engineering: coordinated events, drove student engagement, and liaised between students and college administration.

SOFT SKILLS

Leadership & Team Collaboration • Effective Communication • Critical Thinking & Analytical Ability • Problem Solving • Decision Making • Time Management • Quick Learning Ability
